LOW SULPHUR	Yes

The Estate

Wildehurst Wines is a boutique winery in the Swartland, South Africa. We produce two ranges of wine using minimal intervention winemaking. During production of our wine not commercial yeast, commercial enzyme or commercial acid is used. The Velo Range is our easy drinking, fruit forward range of wine and the Wildehurst Range is more complex and layered.

Winemaking

A blend of 67% Grenache and 33% Shiraz. Each cultivar was individually wild fermented and barrel matured in old French oak barrels for 18 months whereafter it was blended and bottled.

Tasting Note and Food Pairing

Ripe cherry and forest berry aromas balanced with a hint of perfume carries through to the pallet. Silky smooth tannins and a long lingering aftertaste. Makes a perfect pairing with lamb or beef.

Other

Produced using minimal intervention (no commercial enzymes, yeast or acid was used).
